Kaiser Permanente Amateur Radio Network

What is KPARN?

The Kaiser Permanente Amateur Radio Network is an organization of FCC-licensed amateur radio operators who volunteer time and technical expertise to support the emergency preparedness mission of Kaiser Permanente Health System through redundant communication technologies.

KPARN supports hospital emergency communications in the region. Any hospital is welcome to join the radio network. Radio organizations requesting communications with any KP hospital should contact net control.

Find out more

Whether you're an expert radio operator or just starting out, KPARN is a place to share your interests while learning practical applications for radio outreach.

Visit us and find out why KPARN has been a valuable resource for more than 30 years.

Where:

52.70 MHz repeater
-.500 offset * 82.5 Tone
40 Meters – 7.228

Visitor check-ins welcome

Join us!

To continue providing critical services to hospitals and medical centers all over Southern California, KPARN needs more amateur radio operators dedicated to its emergency communication mission.

- Be at the forefront of emergency preparedness
- Network with amateur radio enthusiasts
- Increase your technical knowledge

Volunteers commit to:

- monthly radio drills
- bi-annual classroom training
- provide support to a Kaiser Permanente Medical Center and participate in selected medical events
